

**ICA12-50JPLB****1/2" Plenum-Rated Air-Dielectric Coaxial Cable, Black Color**

Designed and Made in USA, for Public Safety to Commercial 5G Applications

**Plenum-Rated 1/2" Air Dielectric Cable, Premium Design**

RFS Technologies' 1/2" air dielectric cable is specifically engineered to meet stringent plenum requirements in both the United States and Canada, ensuring compliance with NEC, NFPA and CSA safety standards for use in air-handling spaces. Designed for exceptional RF performance and low loss, this cable is widely used in Distributed Antenna System (DAS) projects for in-building wireless communication, including commercial buildings, airports, hospitals, and other high-density venues. Its flexible construction allows for easy routing in tight plenum spaces, while its robust shielding ensures minimal signal interference. Ideal for applications requiring high signal integrity and regulatory compliance.

**FEATURES / BENEFITS**

- **High-Frequency Performance up to 6 GHz.** Engineered to support RF signals across a broad frequency range up to 6 GHz meeting the demands of today's advanced wireless communication systems, including 5G networks.
- **Superior Shielding for Maximum Interference Protection.** The solid outer conductor provides complete 360° RFI/EMI shielding, significantly reducing signal leakage and minimizing system interference in high-density RF environments.
- **Exceptional Intermodulation Performance.** With both solid inner and outer conductors, the cable virtually eliminates passive intermodulation (PIM), ensuring clean signal transmission.
- **Optimized for Plenum-Space Installations.** Engineered to meet plenum-rated safety standards in the U.S. and Canada, this cable is ideal for indoor DAS applications in office buildings, hospitals, airports, and other public venues requiring strict fire safety compliance.
- **Engineered and made in USA.** Short lead time at the highest quality.

**Technical features****APPLICATIONS**

Applications		In Building	DAS
--------------	--	-------------	-----

**STRUCTURE**

Size		1/2"
Inner Conductor Diameter	mm (in)	4.8 (0.19)
Inner Conductor Material		Copper-plated Aluminum Wire
Dielectric Diameter	mm (in)	11.8 (0.464)
Dielectric Material		Extruded Polyethylene
Outer Conductor Diameter	mm (in)	13.8 (0.54)
Outer Conductor Material		Corrugated Copper
Jacket Diameter	mm (in)	15.93 (0.627)
Jacket Material		Flame Retardant PVC
Cable Type		Air-Dielectric, Corrugated
